## ADRENALINE

The Pulse Adrenaline was the most successful Chinese Motorcycle to ever be sold in the UK, The Lexmoto Adrenaline now takes over the position as the premier supermoto in the UK with a range of updates that set the standard and demonstrate the dominance of Lexmoto in the UK market. The Adrenaline is powered by a Suzuki Licensed GS125 engine. This 4 stroke power plant provides plenty of torque to put a smile on your face and the reliability to keep it there! We have spent time adjusting the suspension to offer the best handling possible and upgraded the tyres to offer better all-weather grip than ever before! There are LED indicators and a Lithium Ion Battery. We have also upgraded the plastic to offer a flexible Polypropylene finish. The Lexmoto difference does not stop there however! When you get a Lexmoto you get; Double walled rims for improved durability, Stainless steel downpipe, nuts & bolts that prevent rusting, Adjustable front and rear suspension to allow fine tuning to your preference and finally the option to modify the colour scheme of your bike with custom colour sticker packs! Strip the colours off to leave yourself with either a Black or White bike and try a different colour that takes your fancy! With the Lexmoto Adrenaline offering so much it would be a sin to consider anything else!
